## About me

---

I am an enthusiastic front-end developer with a passion for creating user-friendly web experiences using React.js, JavaScript, and modern front-end technologies. I specialize in building interactive and responsive web applications. Over the past year, I have worked on several personal projects. I'm passionate about writing clean, maintainable code. I love building user interfaces that make complex tasks simple and enjoyable for users. I am currently seeking opportunities to contribute to a dynamic team as a React Developer, where I can leverage my skills in JavaScript and React to build meaningful, user-centric applications. I'm excited to continue learning and growing as a developer while working on innovative projects.

## Education

---

**University of Arab Academy for Science, Technology and Maritime Transport,** oct 2021 – present  
software engineering in Computer Science

- GPA: 3.0/4.0
- **Coursework:** Computer Architecture, mobile android application , CCNA , communication skills.

## Experience

---

**Data Analysis and visualization,** ICTHUB Egypt for technology and training Aug 2024 – sep 2024

- Completed a comprehensive training in Data Analytics and Visualization, where I gained hands-on experience with tools such as sql server , power bi and excel .
- Developed proficiency in data cleaning, exploratory data analysis (EDA), statistical analysis, and data visualization. Transforming complex datasets into actionable insights and visually compelling charts, graphs, and dashboards.
- Worked on multiple real-world projects, including:  
.IMDB and northwind Data Visualization using Power BI: Built dynamic dashboards to visualize key metrics and track performance indicators for decision-makers.

**odoo Intern,**switchable oct 2024 – present

- gaining a solid foundation in implementing and customizing Odoo ERP for various business needs, including modules like Sales, Inventory, Accounting, and CRM.
- Acquired hands-on experience in configuring, customizing, and implementing key Odoo modules, such as Sales, Inventory Management, Accounting, Manufacturing, and Purchase. Proficient in Odoo Studio, Odoo Configuration, and Workflow Automation.
- I am eager to apply my Odoo skills in a professional setting, helping businesses streamline their operations through ERP implementation and customization. My goal is to deepen my expertise in Odoo development, particularly in advanced custom module creation and system integration.
- Created a test case generation tool that creates random XML docs from XML Schema

**React Frontend Web Developer ,**Digital Egypt Pioneers Initiative (DEPI) oct 2024 – present

- I gained hands-on experience with core technologies like JavaScript (ES6+), HTML5, CSS3.
- Familiar with modern JavaScript tools and libraries like Webpack, Babel, and Axios for handling asynchronous requests.
- Worked on several personal and group projects, including:  
Websites: Built a responsive websites using html,css, javascript, showcasing my projects and skills. Integrated

smooth scrolling, image carousels, and interactive components to enhance user experience.

Implemented custom hooks to modularize logic and make components more reusable and maintainable.

## Skills

---

**soft skills:** Public Speaking and Presentations, Active Listening, Interpersonal Communication.

**Programming Languages:** C++, python, oop, html, css, JavaScript, SQL, linux.

**Technologies:** visual studio code, vmware, sqlserver, powerBI, PyCharm, Andorid studio, orcal, drawio, codeware.

**problem solving :** Completed coursework in problem solving using c++ (level 0,1,2) in coursera .

**c++ :** Gained hands-on experience with c++ fundamentals and function through various online courses in coursera and udemy

**python :** Learned Python through iti, focusing on how to write a clean code and building functions, dectionarys and other staffs .

**Codewars Challenges :**Solved over 200 algorithmic and data structure problems across multiple difficulty levels, enhancing problem-solving .

## Certifications

---

**Data Analysis and visualization,:** ICTHUB Egypt for technology and traning.
